Dear Reader,

Re: EXPORT LOG MONITORING

Please find attached a copy of the SGS PNG monthly report on its log export monitoring activities for the month of December – 2020. A comprehensive range of log export statistical tables and results of the SGS PNG inspection services has been included.

A total of 47 inspections were carried out this month. Of these, serious discrepancies were detected and corrected for 3 shipments. This represents 6 percent of all shipments. The total volume inspected was 203,615 m³ for the month. Logs exported without initially being declared for export by exporters totalled 307 m³. Supplementary declarations by the exporters were required for all these logs, in order to ensure that The State obtained the full financial benefits of the total log export cargoes.

Financial highlights due to export monitoring for this month are as follows:

Additional Log Export Development Levy collectable (K)	447
Additional Customs Duty collectable (K)	20,649
Additional Foreign Exchange (K)	38,565
Estimate of Additional Tax Revenue (K)	11,570

The following table summarises the benefits of the monitoring Agreement to Papua New Guinea for the year to date, and the previous two years.

	2018	2019	2020
Direct Project Expenses (K)	8,054,198	7,927,445	7,898,979
Additional Development Levy Payable (K)	104,236	55,457	33,594
Additional Customs Duty Payable (K)	2,030,566	1,037,643	649,020
Additional Tax Payable IRC (K, Estimate)	1,422,360	885,258	428,608
Additional Foreign Exchange (K)	4,629,742	2,113,701	1,428,694
Deterrent Effect (K, additional foreign exch. Estimate)	63,328,352	62,296,674	45,579,316

Note: 2020 figures are for January to December

SGS has noted a significant decrease in discrepancies over time since surveillance services were established in late 1994. This on-going 'deterrent effect' has been estimated by the PNGFA as five per cent of the FOB value of log exports.

When reviewing the export and inspections data, it should be noted that not all shipments inspected during the month were exported before month's end.

Log Export Statistics **and** **Export Monitoring** **Highlights**

December 2020

1. This Report is a *post facto* summary of log export shipment inspections and log exports for the month of December 2020. Individual Log Inspection Reports (LIRs) have been prepared for each shipment immediately following the completion of loading. The LIR is forwarded directly to the PNGFA Project Supervisor if on site, and to the nominated Boarding Officer for clearance of the vessel. Data in this report are based on the LIRs, and post-shipment/commercial documents submitted by exporting companies, for Log Export Permits issued by the Papua New Guinea Forest Authority (PNGFA).
2. Log exports for the month of December 2020 amounted to 210,841 m³ in 39 shipments. (see, Report No. 1). Foreign exchange earnings were equivalent to USD24.68 million, with a local currency value of K84.46 million.
3. Log volumes endorsed in December for export amounted to a total of 226,965 m³, this volume decreased slightly by 5 per cent compared to the previous month. (See Report Number 8).
4. Log export duty collectable by the PNG Customs Services total K38.37 million for the month, with an additional K1.63 million payable as export levy (see Report No. 1).
5. The monthly weighted average f.o.b. invoiced price for all saw/veneer rainforest logs was USD125.52/m³ (November 2020: USD88.56/m³), and for all logs was USD117.06/m³ (see Report No. 6). Average prices for the high value species which includes taun, pencil cedar, calophyllum, kwila and PNG mersawa remained generally steady for this month.
6. Rainforest round logs were exported to two countries in December 2020, predominantly to China again (85.5) per cent of the total log export volume while India imported (14.5) per cent. (See Report No. 9).
7. During December 2020, WTK Realty Ltd group of companies was the major exporter with (22.9) per cent of the total volume export followed by Amanab 56 Timber Investment Ltd with (13.2) per cent and KK Connections Ltd group of companies with (11.5) per cent. (See Report No. 11 and Report No. 12 for more).
8. Logs were exported from seven provinces during December 2020, with West Sepik Province being the major exporter with (27.4) per cent of the monthly total, followed by East New Britain (26.8) per cent and West New Britain Province with (16.4) per cent. (See Report No. 13).
9. SGS PNG Inspectors reported major discrepancies for 10 shipments of logs inspected during December 2020. These discrepancies included 92 logs not declared for export which were loaded onto vessels, and 1 log for which the species had been mis-declared. (see Report No. 16, page 16-3)

Full details of each discrepancy for each shipment are recorded at site on a 'Notice of Discrepancy' which is countersigned by the Exporter, with a copy to the PNGFA's Project Supervisor at the time of pre-shipment checking or at loading. A copy of the final 'Log Inspection Report' which includes all Notices of Discrepancy is made available to the PNGFA Boarding Officer at the time of clearance of each vessel for sailing.

Also, in accordance with the well-established log inspection practices, for all logs with a mis-declared species code, the Exporters are required to endorse the 'Notice of Discrepancy;' withdraw the log or correct the species code on their log tallies and summaries; and ensure that these changes are incorporated into their invoice documentation. Similarly, for all loaded logs that SGS PNG inspectors detect as being 'undeclared for export,' the Exporters are required to sign a Notice of Discrepancy; make a supplementary declaration of these logs; add the log volumes to their log tallies and summaries; and incorporate the additional volumes into the documentation relating to Bills of Lading, Invoices and Customs Entries for the collection of export duties and levies. By immediately correcting the errors as they are detected by SGS inspectors, the State maximizes its returns from log exports

10. *Updated information on log export quota periods has not yet been made available for the various log export projects, and hence the monitoring of export quotas is not presently practicable (see Report Number 22).*
11. In December 2020, KK Connections Ltd was the major exporter of low-grade logs with (22.1) per cent of the monthly total, shipped at an average FOB of USD40.00, followed by Kinmas Investment Ltd with (17.0) per cent and PJ Plantation Ltd (15.9) per cent. All of these low-grade natural logs were exported to China. (see report 9 & 21)
12. This December, there were substantial log export permit discrepancies in log volumes loaded for export by various exporters where some discrepancies were over 200 per cent, including over loading of terminalia by 888 per cent under PNGFA export permit number 2012007 by Canopus N0.16 Ltd. (see report 19)
13. Various exporting companies have invoiced and paid a higher export duty this Month, including over payment of K103,553.00 by Vanimo Jaya Ltd under PNGFA export permit number 2011073. (See report 17).
14. Cakara Alam (PNG) Ltd underpaid levy by K37,079.00 under PNGFA export permit number 2011025 this month. (See report 17)

Monthly Discrepancy Report for Shipments Exported during December / 2020

Date printed: 29/01/2021 9:12:54 am

The following is a list of discrepancies found as a result of detection of 'undeclared' logs in the export stacks and also logs with mis-identified species, for each shipment of logs exported during the month. Each discrepancy is evaluated for its economic impact in terms of revenue which would have been effectively lost to Papua New Guinea had the discrepancy not been detected.

(b) The Company may perform services for persons or entities (private, public or governmental) issuing instructions (hereinafter, the "Client").

(c) Unless the Company receives prior written instructions to the contrary from Client, no other party is entitled to give instructions, particularly on the scope of the services or the delivery of reports or certificates resulting therefrom (the "Reports of Findings"). Client hereby irrevocably authorises the Company to deliver Reports of Findings to a third party where so instructed by Client or, at its discretion, where it implicitly follows from circumstances, trade custom, usage or practice.

2. Provision of Services

(a) The Company will provide services using reasonable care and skill and in accordance with Client's specific instructions as confirmed by the Company or, in the absence of such instructions:

(1) the terms of any standard order form or standard specification sheet of the Company; and/or

(2) any relevant trade custom, usage or practice; and/or

(3) such methods as the Company shall consider appropriate on technical, operational and/or financial grounds.

(b) Information stated in Reports of Findings is derived from the results of inspection or testing procedures carried out in accordance with the instructions of Client, and/or our assessment of such results on the basis of any technical standards, trade custom or practice, or other circumstances which should in our professional opinion be taken into account.

(c) Reports of Findings issued further to the testing of samples contain the Company's opinion on those samples only and do not express any opinion upon the lot from which the samples were drawn.

(d) Should Client request that the Company witness any third party intervention, Client agrees that the Company's sole responsibility is to be present at the time of the third party's intervention and to forward the results, or confirm the occurrence, of the intervention. Client agrees that the Company is not responsible for the condition or calibration of apparatus, instruments and measuring devices used, the analysis methods applied, the qualifications, actions or omissions of third party personnel or the analysis results.

(e) Reports of Findings issued by the Company will reflect the facts as recorded by it at the time of its intervention only and within the limits of the instructions received or, in the absence of such instructions, within the limits of the alternative parameters applied as provided for in clause 2(a). The Company is under no obligation to refer to, or report upon, any facts or circumstances which are outside the specific instructions received or alternative parameters applied.

(f) The Company may delegate the performance of all or part of the services to an agent or subcontractor and Client authorises Company to disclose all information necessary for such performance to the agent or subcontractor.

(g) Should Company receive documents reflecting engagements contracted between Client and third parties or third party documents, such as copies of sale contracts, letters of credit, bills of lading, etc., they are considered to be for information only, and do not extend or restrict the scope of the services or the obligations accepted by the Company.

(h) Client acknowledges that the Company, by providing the services, neither takes the place of Client or any third party, nor releases them from any of their obligations, nor otherwise assumes, ridges, abrogates or undertakes to discharge any duty of Client to any third party or that of any third party to Client.

(i) All samples shall be retained for a maximum of 3 months or such other shorter time period as the nature of the sample permits and then returned to Client or otherwise disposed of at the Company's discretion after which time Company shall cease to have any responsibility for such samples. Storage of samples for more than 3 months shall incur a storage charge payable by Client. Client will be billed a handling and freight fee if samples are returned. Special disposal charges will be billed to Client if incurred.

3. Obligations of Client

The Client will:

(a) ensure that sufficient information, instructions and documents are given in due time (and, in any event not later than 48 hours prior to the desired intervention) to enable the required services to be performed;

(b) procure all necessary access for the Company's representatives to the premises where the services are to be performed and take all necessary steps to eliminate or remedy any obstacles to, or interruptions in, the performance of the services;

(c) Supply, if required, any special equipment and personnel necessary for the performance of the services;

(d) ensure that all necessary measures are taken for safety and security of working conditions, sites and installations during the performance of services and will not rely, in this respect, on the Company's advice whether required or not;

(e) inform Company in advance of any known hazards or dangers, actual or potential, associated with any order or samples or testing including, for example, presence or risk of radiation, toxic or noxious or explosive elements or materials, environmental pollution or poisons;
