

Log Export Monitoring Monthly Report

For
December 2014

to the

Papua New Guinea Forest Authority

April 2015

Wednesday, 29th April 2015

Dear Reader

Re: EXPORT LOG MONITORING

Please find attached a copy of the SGS PNG monthly report on its log export monitoring activities for the month of December – 2014. A comprehensive range of log export statistical tables and results of the SGS PNG inspection services has been included.

A total of 117 inspections were carried out this month. Of these, serious discrepancies were detected and corrected for 36 shipments. This represents 31 percent of all shipments. The total volume inspected was 369,385 m³ for the month. Logs exported without initially being declared for export by exporters totalled 2,211 m³. Supplementary declarations by the exporters were required for all these logs, in order to ensure that The State obtained the full financial benefits of the total log export cargoes.

Financial highlights due to export monitoring for this month are as follows:

Additional Log Export Development Levy collectable (K)	14,018
Additional Customs Duty collectable (K)	290,921
Additional Foreign Exchange (K)	589,202
Estimate of Additional Tax Revenue (K)	176,760

The following table summarises the benefits of the monitoring Agreement to Papua New Guinea for the year to date, and the previous two years.

	2012	2013	2014
Direct Project Expenses (K)	6,550,176	7,489,752	7,519,295
Additional Development Levy Payable (K)	199,685	193,851	167,209
Additional Customs Duty Payable (K)	2,594,014	2,930,325	2,854,699
Additional Tax Payable IRC (K, Estimate)	1,801,907	1,873,754	1,825,024
Additional Foreign Exchange (K)	6,006,356	6,245,844	5,500,250
Deterrent Effect (K, additional foreign exch. estimate)	29,700,314	36,207,938	47,597,228

Note: 2014 figures are for January to December

SGS has noted a significant decrease in discrepancies over time since surveillance services were established in late 1994. This on-going 'deterrent effect' has been estimated by the PNGFA as five per cent of the FOB value of log exports.

When reviewing the export and inspections data, it should be noted that not all shipments inspected during the month were exported before month's end.

For any change of address or if you would like to add a name to the mailing list or be removed from the mailing list, please contact the SGS office by email, telephone or fax, at your convenience.

Similarly, please advise if you would prefer to receive an email copy of the report instead of a printed copy.

Yours faithfully

SGS PNG Ltd
Port Moresby

Summary Highlights of Log Exports in 2014

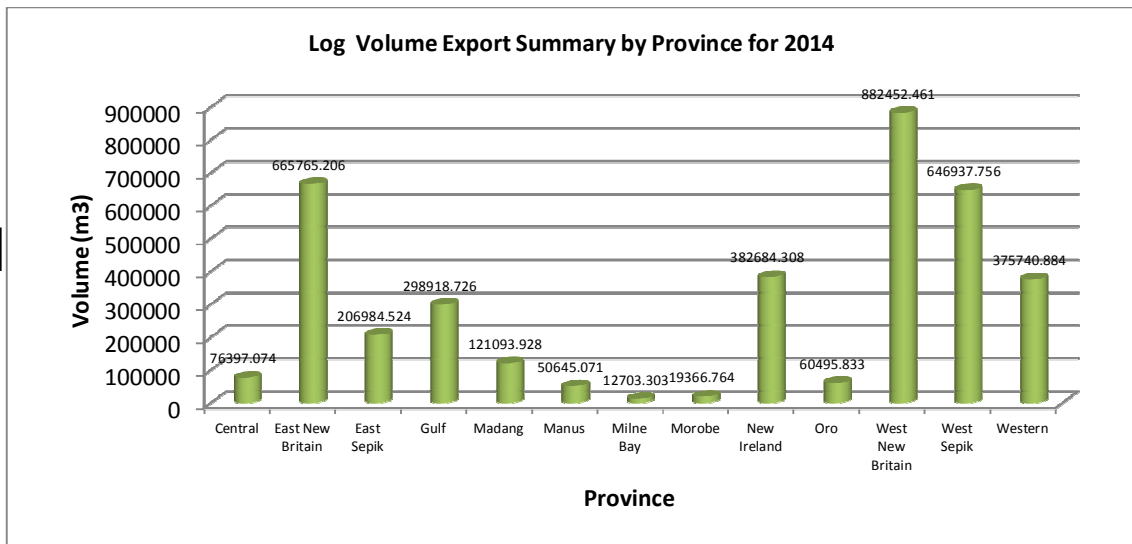

1. In 2014, June month had the highest log export volume, followed by April then October. In terms of FOB value in Kina October achieved the highest followed by April then November. September had the lowest volume export for the year. (See Graph 1)
2. Log volumes shipped to China amounted to 88 per cent, the highest in the year. There were seven export destinations in 2014. (See Graph 6)
3. Log volumes shipped out of West New Britain Province amounted to 23 per cent, the highest for the year followed by East New Britain (18 per cent) then West Sepik (17 per cent). Milne Bay was the lowest exporting province (0.3 per cent). (See Graph 2)
4. In 2014, exported tau had the highest log volumes (16.0 per cent), followed by kwila at (8.3 per cent) then malas at (7.9 per cent) comparing group 1 spp alone. (See Graph 3)
5. In terms of log grade, 92 per cent of shipped log volumes were saw veneer. Group 1 spp was also the highest volume exported at 61 per cent for the year. (See Graph 4 & 8)
6. The highest export was from Sigite Mukus FCA project in 2014 (8.9 per cent of the log volumes). Wawoi Guavi project followed after at 5.2 per cent, then Wewak Turubu FCA at 4.5 per cent. (See Graph 8)
7. FCA projects contributed 30 per cent of the log volumes shipped in 2014. (See Graph 5)

Log Export Statistics
and
Export Monitoring
Highlights
December 2014

1. This Report is a *post facto* summary of log export shipment inspections and log exports for the month of December 2014. Individual Log Inspection Reports (LIRs) have been prepared for each shipment immediately following the completion of loading. The LIR is forwarded directly to the PNGFA Project Supervisor if on site, and to the nominated Boarding Officer for clearance of the vessel. Data in this report are based on the LIRs, and post-shipment/commercial documents submitted by exporting companies, for Log Export Permits issued by the Papua New Guinea Forest Authority (PNGFA).
2. Log exports for the month of December 2014 amounted to 338,175 m³ in 102 shipments, of which 5.7 per cent of the volume was plantation logs (see, Report No. 1). Foreign exchange earnings were equivalent to USD31.89 million, with a local currency value of K80.38 million.
3. Log volumes endorsed in December for export amounted to a total of 315,084 m³, this volume decreased significantly by 29.8 per cent compared to the previous month. (see Report Number 8).
4. Log export duty collectable by the Internal Revenue Commission totaled K21.78 million for the month, with an additional K2.55 million payable as export levy (see Report No. 1).
5. The monthly weighted average f.o.b. invoiced price for all saw/veneer rainforest logs was USD95.89/m³ (November 2014: USD107.79/m³), and for all logs was USD94.29/m³ (see Report No. 6). All average prices for the high value species, which includes calophyllum, taun, pencil, kwila generally remained steady while PNG mersawa increased slightly by USD5 for this month.
6. Rainforest round logs were exported to four countries in December 2014, predominantly to China again (92.8 per cent of the total log export volume), with India taking (5.7 per cent), Korea (0.8 per cent) and Japan (0.6 per cent). (See Report No. 9).
7. During December 2014, Rimbunan Hijau (PNG) Ltd group of companies dominated log exports with (26.4 per cent) of the total volume, Cakara Alam (PNG) Ltd (11.8 per cent) and Vanimo Jaya Ltd (10.6 per cent). All the other company's exports were below five per cent. (see Report No. 11 and Report No. 12).
8. Logs were exported from nine provinces during December 2014, dominated by West New Britain (30.3 per cent) of the monthly total, followed by West Sepik (19.4 per cent) and Gulf (12.5 per cent). (see Report No. 13).

9. SGS PNG inspectors reported major discrepancies for 49 shipments of logs inspected during December 2014. These discrepancies included 681 logs not declared for export which were loaded onto vessels, and 102 logs for which the species had been mis-declared. (see Report No. 16, page 16-12)

Full details of each discrepancy for each shipment are recorded at site on a 'Notice of Discrepancy' which is countersigned by the Exporter, with a copy to the PNGFA's Project Supervisor at the time of pre-shipment checking or at loading. A copy of the final 'Log Inspection Report' which includes all Notices of Discrepancy is made available to the PNGFA Boarding Officer at the time of clearance of each vessel for sailing.

Also, in accordance with the well-established log inspection practices, for all logs with a mis-declared species code, the Exporters are required to endorse the 'Notice of Discrepancy,' withdraw the log or correct the species code on their log tallies and summaries; and ensure that these changes are incorporated into their invoice documentation. Similarly, for all loaded logs that SGS PNG inspectors detect as being 'undeclared for export,' the Exporters are required to sign a Notice of Discrepancy; make a supplementary declaration of these logs; add the log volumes to their log tallies and summaries; and incorporate the additional volumes into the documentation relating to Bills of Lading, Invoices and Customs Entries for the collection of export duties and levies. By immediately correcting the errors as they are detected by SGS inspectors, the State maximizes its returns from log exports

10. Twenty five of the companies that exported logs were all very slow to submit post-shipment documents for December 2014, exceeding 50 days to submit documents for a shipment, including International Corporation Ltd, (132 days), Frontier Holdings Ltd (125 days), Niugini Lumber Merchants Ltd (125 days), Sinaran Papua Ltd, (118 days) and Wawoi Guavi Timber Co. Ltd (118 days).

Submission of these documents by these log exporting companies have not improved in their timely compliance. These numbers remain tardy in this respect which has inevitably delayed completion of the monthly statistics and reporting. (see Report No. 20)

11. Updated information on log export quota periods has not yet been made available for the various log export projects, and hence the monitoring of export quotas is not presently practicable (see Report Number 22).
12. The higher average FOB prices for the important high value species which includes calophyllum, pencil cedar and taun exported in December 2014 in general were achieved in general by Uni Rise Ltd and Lawrence Wood Ltd. Vanimoya Jaya Ltd and Ribunan Hijau Ltd achieved it for PNG mersawa and Bismark Industries Ltd had the lowest FOB for kwila by a margin of USD10.(see Report No. 21 for more details)
13. This month, there were substantial log export permit discrepancies in log volumes loaded for export by various exporters where some discrepancies were well over 500 percent, including over loading of malas by 1719 and 1683 per cent by Niugini Lumber Merchants Ltd under PNGFA permit numbers 1412164 and 1412081 respectively. Also Island Forest Resources Ltd over loaded taun by 647 and 608 per cent under PNGFA permit numbers 1412068 and 1412019 respectively. (see report 19)
14. Bewani Forest Product Ltd exported red canarium under PNGFA permit number 1411056 at a lower fob against PNGFA approved price endorsement. This has resulted in the under payment of duty by K1, 175.00. The same exporter exported red canarium, group 2, 3 and 4 species under PNGFA permit number 1411093 at a lower fob against the PNGFA approved price endorsement. Again this has resulted in the differences in fob values and eventual under payment of duty by K13,400.00 (See report 17-1)
15. This month Cakara Alam (PNG) Ltd exported terminalia under PNGFA permit number 1411090 at a lower fob against PNGFA approved price endorsement. This has resulted in the differences in fob values and eventual under payment of duty by K9, 255.00. (See report 17-1)

16. Niugini Lumber Merchants Ltd exported groups 2, 3 and 4 spp. under PNGFA permit number 1411162 at a lower fob against PNGFA approved price endorsement. This has resulted in the differences in fob values and eventual under payment of duty by K1, 393.00. (See report 17-6)
17. Also Sentawan (PNG) Ltd exported taun and terminalia under PNGFA permit number 1410161 at a lower fob against PNGFA approved price endorsement. This has resulted in the differences in fob values and eventual under payment of duty by K26, 152.00. (See report 17-8)

Monthly Discrepancy Report for Shipments Exported during December / 2014

Date printed: 29/01/15 2:48:47 PM

The following is a list of discrepancies found as a result of detection of 'undeclared' logs in the export stacks and also logs with mis-identified species, for each shipment of logs exported during the month. Each discrepancy is evaluated for its economic impact in terms of revenue which would have been effectively lost to Papua New Guinea had the discrepancy not been detected.

A) Discrepancies by Shipment
